Detailed Action

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Withdrawn Claims 7-10 have been cancelled.

Claim Rejections - 35 USC § 102

1. All relevant rejections have been withdrawn as being satisfied.

Reasons for Allowance

2. Claims 3,5,6,11, and 12 (renumbered as 1-5) are allowed.
3. The following is an examiner's statement of reasons for allowance:

This application is for a magnetic head assembly.

- **Claim 3** specifies a magnetic head assembly, which requires:

“...wherein the flexure comprises a junction piece protruded from an edge of the flexure for joining the load beam and *a main flexure having a cleavage part that is cleaved upon exertion of an external force pulling the main flexure in a leading end direction in a state that the junction piece is left joined to the load beam.*”

These features, in combination with the other features of Claim 3, are not anticipated by, nor made obvious over, the prior art of record.

Art Unit: 2653

- **Claim 12** specifies a magnetic head assembly, which requires:

"...wherein the flexure is a sub-flexure and a junction piece of a main flexure that is cleaved at a cleavage pad of the main flexure remains on the load beam, the sub-flexure being joined to the load beam at a position different from the junction piece of the main flexure."

These features, in combination with the other features of Claim 12, are not anticipated by, nor made obvious over, the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
